1968 Mustang GT High Country Special 289 4speed. One of 250 High Country Specials produced in 1968. This Mustang is equipped from Ford with the GT/California Special equipment and less than 42,000 original miles. Runs perfect, zero issues, obviously more than a driver and likely one of the rarest Mustang models ever built, but really fun to drive with an awesome exhaust note. It has a new clutch, new 15" tires and wheels, and a recent tune-up. Original 14" wheels and hub caps with newer radials included. A nicely framed Marti report/factory build sheet and a file full of history and documentation are also included. Very original right down to the Philco radio and the factory hose clamps under the hood. Aug 2017 appraisal available upon request Asking \$32500 firm.

Ford has a way with better ideas... advanced ideas that you may offend when you buy, and keep you out from the misadventure of the past.

Mustang... the original fun car comes with standard dual bucket seats, and dual mounted rock shields... and a long list of safety features.

Ford... with the award on economy the price... money-saving 50... and 100... all-passenger comfort.

Wagon... 12 models from the new removal failure to respect Country House... including the famous Magg... Doggett standard on Ford... Fairlane and... Falcon.

Look at any 1968 Ford... you'll find better ideas... and everywhere for your driving pleasure!
