1968 Cal Special for sale! 42k.

All original except for dual exhaust , 4 barrel edelbrock 500 cfm carb. Aftermarket rocker panel trim but have original thst need minor work and buffing.

Original color Gulf Stream Aqua, black vinyl top, black interior with front bench seat. All new interior in original material - not a kit! Original comfort weave material from SMS in Oregon. All interior including dash pad, headliner , carpet , door panels have been replaced. Original seats were padded and reupholstered. All new door handles , locks , arm rests, etc. also original faced radio with upgraded Bluetooth capabilities.

Engine is matching numbers as well as tranny. Both rebuilt . Mild cam upgrade. Sounds great ! 289 Auto C-4 auto trans. Original upgraded radiator (390 size for extra cooling) I have original compressor for air conditioning not on car. (1969 they added the Mark IV air conditioner from Sears). Most chrome except vent windows rechromed . 1968 gt wheels . (not original) but I have original rims/ beauty rings and ford gt caps all in good shape.

Engine was professionally built as well as Tranny. Dyno tested 250 horse with headers . (Not on car) . Engine has ceramic coated exhaust manifolds.

Car has the rare marchal fog lights with the original grille that has the brackets so fog lights are floating in grille. (No post underneath light).

Car was found in a garage in Cali. Unmolested and all original from 2nd owner who bought it in 1969. Car has been stripped down to metal (door jams, etc), primed and painted . Shows very nice!

Not in a hurry to sell so no low ball offers. It's a very nice real California Special with a very rare color with bench seat and marchal fog lights. A unique thing is it had 67 door panels on it (with the original interior). I still have the panels.

Again 42k or best offer over 40. I've got much more into it than that. In La Center WA.

Looking for a shop in Southwest WA that can shine up my trim around windows on my 68 mustang.
Any ideas?
Thanks

Most chrome shops will do it.

Do it yourself. Work from 400grit down to 2000. Finish with polish.

Got a question ...I had my headliner redone, but the window post wasnt covered . Is that supposed to have headliner material on it?
Thanks

 **Greg Liddle**

I have a 68 , there is not headliner material on the windshield post. Years ago I had a new 67 and that post had a pad on it. It may have been because that car had deluxe interior. Hope this helps.

A-pillar? It only goes as far down as the metal clip. 90% is just painted. Or it could have a cover that clips in.

Looking for a mustang shop to finish up loose ends on my 68. I had talked to a guy in Sherwood Wa, who said he could get me in in November or December but haven't heard back and can't find his number! Also an electrical wiring guy in Ridgefield Wa. If anyone knows of these guys please let me know or if you have a good mustang guy near Portland Oregon I would appreciate their contact info.
Prefer an actual shop so it can be done in a timely manner. Hope to drive my car mo... [See more](#)

Contact West Coast Classic Cougar. They deal in Mustangs as well. (One of their employees is a GT/CS owner as well.)

I have some 67/68 parts to sell. Taking offers , Located in La Center Wa. Big items will have to be picked up obviously.

1. Original Ford rims. They need sandblasting and painting.
2. 4 Original GT caps and beauty rings. 400 set ... [See more](#)

Thanks for the add! Here is my 1968 Cal Special with original Marchal fog lights I was able to find. Numbers matching with 76k original miles. Nonetheless it needed a full restore.

Matt, your car is too late in the year to have original '67 door panels. A former owner must have swapped them.
