

## Recognition & Authenticity

What CS-unique items to look for to identify a "true" GT/CS • Production number info of colors, interiors, engines, transmissions, options, DSO, etc... (from Marti Autoworks) • Production changes and recalls • 1968 coupe specifications & capacities • Sample Invoices • How to decipher data tag information • Factory & Dealer Options • Statistical analysis of production items • Diagrams & Photos •

## Restoration / Concours Detailing

Examples of "ground-up" restorations • Each area discussed, including: Grille / Fog Lights / Fiberglass scoops, decklid & taillight panel / Tail light wiring rebuild / Louvered Hood / Body Color charts & formulas / Underside & Engine compartment colors and detailing / Stripe application / Concours Detailing specs / parts numbers / sources for parts / fog light alignment specs / ornaments and hardware /Concours Rules for GT/CS (pending MCA Approval).

## Vintage Performance

"What was available at that time", including Ford dealer add-on "Hi-Per" parts to Shelby Parts & Accessories; Paxton Superchargers; Vintage suspension parts, Vintage 1968 engine dress-up parts, Wheels and Tires, etc., etc....

## The Return of the GT/CS: 2007/2008!

The complete story of the development & history of the late-model GT/CS! Production data, interviews with the production team, and much more! • Ford dealership photos • Colors and interior information • Parts Numbers & specifications • Factory and Dealer Options • Side Stripe application specs • Advertising and Promotion Information • 2008 dealer add-on supercharger info • 2007 / 2008 differences • Concours Judging Guidelines •

## The GT/CS Registry: Data, Photos & Owner Experiences

Over 800 Cars will be included, listing VIN, data plate info, options, photos and stories of the GT/CS owner experiences for 40 years. Comprehensive data gathering and sorting will make this one of the most detailed and exciting Mustang Registries ever! Authenticity checking in this registry will be made possible through owner-provided Marti Report information.

## The GT-500 Little Red & The EXP-500 Green Hornet Stories

These are the stories about the two most famous Mustang coupes on the planet!

Little Red was the late-'67 Shelby prototype coupe idea, that inspired the GT/CS! The "Green Hornet" was the Shelby test bed for big-block fuel injection; and an

independent rear suspension, built from a GT/CS pilot production car. This is the complete story, including its discovery and restoration. An added book bonus! Specifications are included.

## The GT/CS DVD:

Among the features included on this special DVD are: The 1968 Television commercials filmed on a California beach (all three versions)\* • The 2007 GT/CS TV commercial(s)\* • Mustang "CE" • Footage of GT/CS Mustangs on the streets of California • GT/CS at the drag track • a walk around authentication of a '68 GT/CS, and 2007 GT/CS • Scenes of a MCA Gold-Award winning (GT-390) GT/CS • Available ONLY with book purchase (not available separately).(\*pending approval)
