- Hurst shifter
- Fiberglass decklid, tail panel and side scoops
- Thunderbird tail lights
- Canary Yellow with Black bucket seat interior
- GT wheel covers

In 1968, Ford took Mustang special editions to a new level with the California Special, a hardtop with its own unique exterior that included rectangular fog lights in the blackout grille, side stripes with GT/CS lettering, a louvered hood with twist-type locks, and fiberglass components from Shelby, including side scoops and a rear end with ducktail spoiler and horizontal 1965 Thunderbird tail lights. One of 3,800 produced for California Ford dealers, but also sold in most western states, this Canary Yellow 1968 California Special is powered by a 289 CI V-8 enhanced by a 4-barrel carburetor, open-element air cleaner, chrome valve covers and dual exhaust. The transmission is the coveted 4-speed with a Hurst shifter. As one of the most unique of all Mustang special editions, this 1968 GT/CS is also equipped with the black bucket-seat interior, optional chrome styled steel wheels with GT covers, and an engine-compartment export brace and Monte Carlo bar.
