This is a HUGE campus, and it may be bewildering at first. It's usually crazy in the morning, and I recommend arriving EARLY to get in line for admittance. I'm hoping to get all cars parked together, but it may not be possible for us to be next to each other. If you arrive together it's easier to park side by side in the lot. I will be there in Lot 12 yelling to get the CS cars parked in our CS reserved section. In the new CS section there is no reserved area for CS cars in the '05 to '11 section, but you will see my black '08 with "aemoo28" license plates.
