

## The Mustang "California Special"... the "in" car in California

"Only Mustang makes it happen"... this time with a limited edition GT/CS... California Special Mustang!

Introduced in March, the Mustang GT/CS was especially designed for California sports car buffs who now account for about 20% of Mustang's national sales. Easily identified by a racing spoiler, competition-type hood latches and scoops on the side, the new "California Special" has 34 special options, including a pit-stop (pop open) gas cap.

The buyer can also order any of Mustang's power plants and other regular options.

It's a pretty good bet that Mustang owners everywhere will be looking at the "California Special" with ideas of their own that could mean more Mustang accessories and parts sales for your dealership. While these items are now listed in the Master Catalog in the usual numerical order, we have grouped them here for your information and convenience.

### GT/CS Special Equipment Available for Service (Tail lights, as shown above, are presently serviced)

Part Number	Description	Part Number	Description

# New Products and Product News

## FORD GLASS CLEANER... A "King Size" New Product Wearing A New Look

New Ford Glass Cleaner has been especially formulated for cleaning automotive windows. It quickly removes dirt film and haze from interiors—road splash, grease and insect smear from exteriors. It can also be used to remove smudges and finger marks from vehicle paint, vinyl, rubber and upholstery areas. Ideal for cleaning household formica, porcelain and tile surfaces too.

Big 23-ounce can is commercial size... with almost 40% more contents than the average aerosol glass cleaner on the market. Aerosol spray also provides fast and easy application. And since cleaner is non-toxic and non-flammable, it's safe to use almost anywhere. Leaves a fresh lemon aroma—never a harsh odor.

Ford Glass Cleaner is one of the first in a series of new chemical products to highlight the "racing-to-victory" GT motif.
