*Dedicated to the Preservation, History and Enjoyment of the Ford Mustang GT/California Special.*

October, 2007

Dear GT/CS Owner & Enthusiast,

Since the 1996 GT/CS Registry book, so much has happened in the "GT/CS World".... especially with the return of the new, 2007/2008 Mustang GT/CS. *The enthusiasm for this well-loved limited edition Mustang seems to be never-ending!*

This mailing is about an upcoming new, revised limited edition of my 1989 book: **"GT/California Special Recognition Guide and Owner's Manual"** that is slated for availability early next year. For the past two years, amazing sales on EBAY of my 1989 (@\$280) and 1996 (@\$150) editions prompted me to bring out a second edition. Great interest and support for this book has been overwhelming. It will answer the needs of maintenance, restoration, and history, as well as list all the newly registered GT/CS Mustangs since the 1996 edition (some with complete restorations!). This is a book that you've been wanting for a long time, covering more material in greater detail than the previous two books. Publishing this new edition will require licensing from Ford, approval from the Shelby American Automobile Club (SAAC), and approval for the GT/CS Concours Guidelines from the Mustang Club of America (MCA). All of these approvals are currently "in the works"; and moving along well.

As one of the 1,000 members of the GT/CS Registry, you are receiving this exclusive notification to make a prepublication reservation for a signed and numbered copy. This new, 2008 anniversary edition will be hardbound this time with 200 black and white and color pages, with a special DVD. This will be a quality product that will compliment your GT/CS, adding to it's value and heritage. Some owners have already expressed interest in buying more than one copy, as an investment. Selected numbers of this edition will be sold on a first-come basis. I will sign and number each of the 2000 copies in this limited printing (see the enclosed book reservation form for details on ordering). *There is no obligation to pre-order. You are welcome to order your copy (copies) when they become available next spring.*

On the following pages of this mailer, I have outlined the book, and have some owner survey questions for you to answer. If you have an address change, sold your CS (or bought a new one), please advise me ASAP. If you know of other GT/CS Mustangs near you ('68 or '07-'08), please pass on this registry information. If you need to register your GT/CS, please do it directly through my P.O. Box address, to be sure that I receive it directly. *Many thanks to you for your continued interest and support!*

Paul M. Newitt,  
1968, 2007, 2008 Mustang GT/CS Registrar.

For further info on the '68, and especially '07-'08 GT/CS Mustangs, please visit [www.pmndesigns.com](http://www.pmndesigns.com) for future updates; and be sure to also visit [www.saac.com](http://www.saac.com), and [www.californiaspecial.com](http://www.californiaspecial.com).
